SEATTLE . . . The City of Flowers

To Our Garden Friends,

To the lover of roses, no spot affords more contentment, keener pleasure, or more beauty of color and fragrance than his rose garden.

This 1950 Rose Folder contains a carefully selected group of America's finest roses. These have been chosen for fragrance, profusion of blooms, good habit of growth, disease resistant foliage and for perfection of flowers.

Rose varieties are listed here by color classification, also as Bush, Climbers, Polyantha, Floribunda, Shrub, Miniature and Tree Roses.

Malmo Quality Roses are 2 year, No. 1, extra heavy grade, field grown stock with strong root systems, that will bloom this season. They are especially suited to our climatic conditions as they are grown right here in the Pacific Northwest.

We extend a cordial welcome for you to visit our nurseries and Display Gardens often. We are most appreciative for the strong bond of friendship which we enjoy with our customers and shall continue to make every effort to merit this confidence.

Yours for Better Roses,
Clark Malmo

CULTURAL HINTS

WRONG

When planting roses, spread out the roots over a mound of topsoil, with the bud or basal branching point barely under the surface. Work soil in around the roots and firm by tamping. The proper root requirements are a rich garden soil, preferably worked two feet deep. Mix in well-rotted manure or Malmo Organic Fertilizer.

RIGHT

Roses like plenty of water. Flood the beds once a week by placing the hose on the bed and letting it run slowly so that the water may soak deep to the roots. Spent blooms should be removed, cutting the stem above the first complete set of five leaves, in order to induce more blooms. If long stemmed roses are wanted, cut so that only two sets of leaves remain on the stalk.

PRUNING - properly, insures success in the growing of roses.

Bush Roses

Newly set Bush Roses when planting should be cut back to 6 inches, to an outside bud or eye. Cut out all the weaker branches and leave only 2 or 3 of the strongest branches. This will assure a strong, low, bushy growth bearing larger flowers.

Established roses should be cut back in early spring to 12 to 18 inches from the ground, also to outside bud or eye.

Result of close pruning. Low, compact — large flowers.

MALMO ROSES

BELONG IN EVERY GARDEN

The Polyantha or Baby Roses form shapely, compact bushes 12 to 18 inches high. Their great mass of bloom all season make them excellent for edging or bedding purposes.

CAMEO: Shell pink with salmon suffusion, touched with glow of gold. \$1.00

CARROLL ANN: (Pat. 707) Something new in the Polyantha rose. The flowers are shaped like Ranunculus blooms, incurving petals producing globe-shaped flowers in large clusters. The color is salmon-orange and does not discolor or fade. Excellent for edgings. \$1.25

CECILE BRUNNER: Perfect pink buds. The 'Sweetheart' Rose. \$1.25

GLORIA MUNDI: Brilliant orange-scarlet, prolific and unfading. \$1.00

RED RIPPLES: An intense sparkling red; shapely long buds. \$1.25

CHATTER: (Pat. 739) Continuous blooming crimson-red blossoms in clusters. Does not burn out in full sun. \$1.25

MALMO ORGANIC FERTILIZER

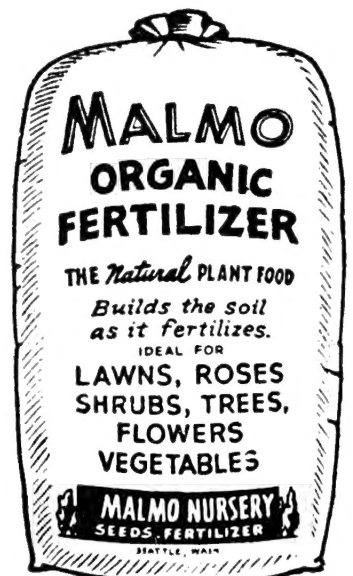

THE ORGANIC FERTILIZER FOR EVERY GARDEN USE

All plants need a balanced organic food, not just a stimulant. They need one containing those elements in right amounts that make plenty of strong roots, produce sturdy stalks, vigorous foliage and an abundance of good sized blooms.

Malmo Organic is not a chemical but an organic food that becomes available naturally through bacterial action as the plants can assimilate it. Its effects are lasting, building the soil as it fertilizes. The proportions of nitrogen, phosphate and potash are high and blended to suit our conditions here. It proves most economical as less need be used than of many other fertilizers.

Malmo Organic Fertilizer may only be obtained direct from Malmo's. The best proof of its superior Qualities is that it is used in large Quantities at Malmo's Nurseries. Knowing its value and importance in your garden, we feel no hesitancy in urging you to include some of it in your order for plants.

AMERICA'S FINEST

Floribunda Roses

MALMO ROSES

ARE NOTED FOR BRIGHT COLOR

Floribunda or large flowered cluster roses are noted for low bushy habit of growth, permanence and continuity of bloom. They are especially effective in mass plantings and should be planted about 14 inches apart. They provide blooms from early spring until late frost.

BETTY PRIOR: (Pat. 340) Sparkling red buds in clusters, opening shell pink, resembles a Pink Dogwood. Strong growing, floriferous. \$1.25

CHEER: Ovoid buds of orange-pink to red opening large, ruffled, semi-double; vigorous prolific grower. \$1.25

DONALD PRIOR: (Pat. 377) Immense clusters of wine-red non-fading flowers, very free blooming, attractive foliage. \$1.25

ELSE POULSEN: Medium size, semi-double, bright rose-pink flowers. \$1.00

FASHION: (Pat. 789 A.A.R.S. 1949-50) Exquisite luminous coral-pink overlaid with gold which softens to clear coral and then deepens into deeper tinted tones. \$2.00

FLORADORA: A brilliant cinabar-red, constant blooming Floribunda. Exceptional in its color and form. \$1.00

GERANIUM RED: (Pat. 811) A true geranium-red color with a sweet fragrance not found in most Floribundas. \$1.50

GOLDILOCKS: (Pat. 672) Best true golden yellow floribunda. Double flowered like a Miniature Tea Rose. \$1.50

HOLIDAY: Large ovoid bud, orange-yellow flushed pink opens semi-double, flame-pink with reverse clear yellow. Very vigorous. \$1.50

LAVENDER PINOCCHIO: Bud light chocolate-olive-brown opening large semi-double; vigorous, disease resistant. \$2.00

MARIONETTE: (Pat. 569) Dainty creamy yellow 'sweetheart' buds opening fully double, changing to pure white with age. \$1.25

PERMANENT WAVE: (Pat. 107) Fluted petals of lively red, free blooming. \$1.25

PINK BOUNTIFUL: (Pat. 601) Produces large clusters of soft begonia-rose blooms over a long season. Good foliage. \$1.25

PINKIE: (Pat. 712) Slender pink baby rose buds open to fully double two inch flowers. Free blooming, fine for corsages. \$1.50

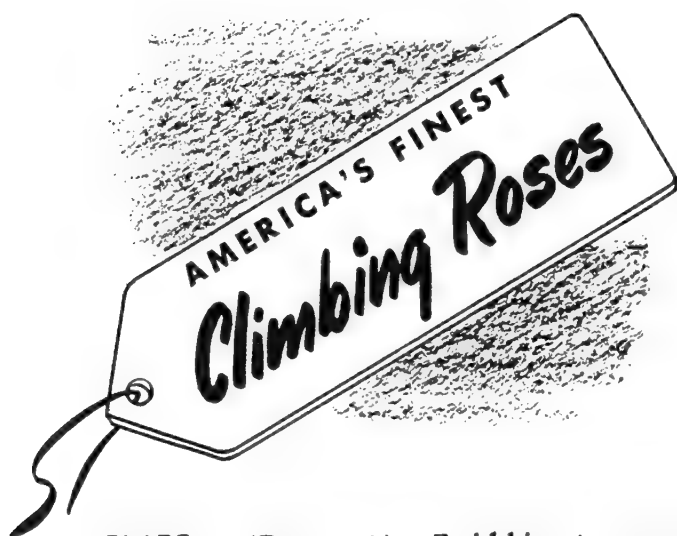

PINOCCHIO: (Pat. 484) Buds, rich salmon flushed gold at base, opening to clear pink. Profuse flowering, fragrant. \$1.25

RED PINOCCHIO: (Pat. 812) Constant blooming dark red, velvety sheen. A delightful addition to any garden. \$1.50

ROSENELFE: Clusters of perfect two inch rose pink flowers, floriferous. \$1.25

SUMMER SNOW: (Pat. 416) The most prolific of white floribundas, has delicate cream buff buds in large clusters. \$1.25

WORLD'S FAIR: (Pat. 362) Clusters of velvety scarlet flowers appearing continuously all summer to fall, fragrant. \$1.25

TO PRUNE CLIMBING ROSES

Climbers when planted should have all stems removed at the ground except the 2 or 3 strongest. These should not be cut back, except the twigs, as climbers bloom only on last year's growth.

Pruning climbers in subsequent years should be done by leaving only the strongest canes of the current year's growth, removing at the ground the two year canes that have bloomed.

BLAZE: (Pat. 10) Brilliant scarlet cup shaped flowers in huge clusters. Blooms all summer. \$1.50

CHERUB: Salmon-pink Sweetheart rose. \$1.15

DAINTY BESS: Single glowing pink flowers of frilled petals, ever-blooming. \$1.00

CRIMSON GLORY: (Pat. 736) Vivid crimson beautifully formed blooms, very fragrant, blooms about three times during season. \$2.00

CECIL BRUNNER: A strong growing sport of the bush, fine as a pillar rose. Perfect buds of seashell pink, everblooming. \$1.15

CHRISTOPHER STONE: (Pat. 626) Vivid scarlet with flowers larger than bush variety. Vigorous grower - blooms twice during season. \$2.00

DOUBLOONS: (Pat. 152) Clusters of large golden yellow blooms borne freely, spicy fragrance, robust, blooms about three times during season. \$1.50

DR. J. H. NICOLAS: (Pat. 457) Very large, fragrant rose-pink clusters. Very vigorous recurrent bloomer. \$1.50

ETOILE de HOLLANDE: Deep velvety red, richly fragrant, intermittent blooming. \$1.00

HIGH NOON: (Pat. 704) Shapely clear yellow buds on long, almost thornless stems. \$2.00

"HOW TO GROW ROSES"

1948 Revised Edition

By Robert Pyle and
J. Horace McFarland
L. H. D.

192 pages; cloth bound
32 pages in natural color

An up-to-the-minute reference book on Rose-growing for those who wish to have something to turn to at once for sound, practical advice when Rose problems arise. \$2.00

MALMO ROSES

ARE RUGGED AND VIGOROUS

Shrub type roses are distinguished by their erect spiny stems with tough curiously wrinkled or rugose foliage. Use for attractive shrubbery effects or even for hedges. Good for sea shore gardens.

OLD PINK MOSS: Large globular, well-mossed, pink bud. Vigorous grower. \$2.00

PINK GROOTENDORST: Clusters of small, fringed, light pink carnation-like, blooms all season. \$1.50

Floral Arrangements - The Rose, as Queen of the Flowers, needs little arrangement. When arranging roses, it is best to select sprays of blossoms and buds varying in degrees of development for added interest.

Roses for Corsages - The semi-double or single varieties are best suited for personal adornment.

Roses for Boutonnieres - The Polyantha, Floribunda and Miniature varieties are all favorites for this purpose.

Planting Roses for a Cutting Garden - It is suggested by landscape architects that if roses are to be used for bouquets and cutting purposes, three or more of a variety should be planted in preference to one of a kind in the same color. This will assure an abundance of buds as well as provide a beautiful mass color display for the garden.

MINIATURE ROSES

OAKINGTON RUBY: Miniature deep crimson bud opening double unfading ruby-crimson with white eye. Doesn't grow over 12" high. \$1.00

PIXIE: (Pat. 408) Miniature white bud opening double white with faint pink center. Bush 12-14 inches in height. .75¢

ROSA ROULETTI: Truly a miniature, growing only about 6 to 8 inches high. Tiny rose-pink double flowers bloom all season. .75¢

SWEET FAIRY: (Pat. 748) Double rosette form, blush-pink, fragrant miniature rose. \$1.00

TOM THUMB: Miniature, semi-double deep crimson, white at base. \$1.00

MALMO ROSES

ARE EASY TO GROW

Tree Roses are the aristocrats of Rosedom! They lend height to your garden and accentuate its beauty. They are excellent for lining drive-ways, walks, accents in rose beds, or as a lawn or parkway specimen. The varieties listed below all grow well as a tree rose. For full color descriptions, see variety under bush roses. Priced at \$5.00 each.

CAPISTRANO: (A.R.S. 1950) A deep rich shade of rose-pink in bud and fully open flower. Very fragrant, strong growing rose.
